Keep breeding healthier profits

**with a livestock-loan
from Canada's First Bank**

For any improvement you want to make on your farm, the most practical helper you can hire is *money*. With dollars in hand you can build the quality of your herd, modernize your equipment, improve your land and buildings, do any number of things that will increase your farm income or your comfort.

Whatever your plans, your local Bank of Montreal manager will be glad to help you carry them out. He can show you how to use your credit to your greatest advantage . . . how to keep interest charges to a minimum. In money matters, the manager of Canada's First Bank is the man to see *first!*

NEW Light-duty INTERNATIONAL TRUCKS

Take a look. Take a drive. You'll know what we mean by "smooth and gorgeous". Now take a closer look. Right into the heart of the truck. You'll find no passenger car components. Or compromises. These new International models are all-truck every inch of the way. So they work harder. Work longer. Last longer. And save you money. That's what most people want from a truck. How about you?
